Copy 3 of 8MEMORANDUM FOR: Chief, Manufacturing and Services Division, ORR *Retain on history*

ATTENTION :

THROUGH : Chief, Requirements Branch, Reconnaissance Group, CGS

FROM : Chief, CIA/PID (MPIC)

SUBJECT : Comparative Activities: Hong Kong Industry vs. Chinese Arsenal

REFERENCES : (1) ORR Requirement No. O-88 1-80,522 (Supplement I)
(2) CIA/PID Project No. O-88 13-63

1. This memorandum is in response to a supplement to the referenced requirement which asks for a photo enlargement and analysis of a light or heavy fabrication industry in Hong Kong showing the level of activity which could be compared with activity at Chinese arsenals.

2. A search of available aerial coverage of Hong Kong did not reveal photography suitable for comparison as requested.

It is suggested that the following illustrations be looked at in Photographic Interpretation Key Industrial Components, ATM 200-49 (Confidential) which should be in your library. It would be better if a photo copy of the illustrations be used (D/IM 200-49).

Page 6.01 Title page for Hong Kong Fabrication Industries indications of activity are:

1. Rail cars on plant sidings,
2. Vehicles on plant roads,
3. Raw material stored in crane-served yards,
4. Steam issuing from one building,
5. Well maintained buildings and plant roads.

Note: This being a US plant the autos in the parking lot must not be taken into consideration.

Page 6.16, Fig. 6.81 Stereo of same plant shows steam at end of lower annotated crane.
